## MAXIMUM STRENGTH AND ABRASION RESISTANCE

---

XTP is a tough, woven fabric, developed specifically for use where strength and durability are paramount. Along with a water resistant coating to protect from the elements, this makes it ideal for rucksacks and holdalls.

XTP is woven from polyester strands to provide maximum strength and durability. The close weave of the fabric makes XTP resistant to damage from abrasion, tears and scuffs.

XTP has a tough waterproof coating to maximise water repellence

XTP fabric is available in a variety of weights to suit different applications.
